- Helped mitigate and resolve issues by analyzing situation and implementing appropriate solutions.
- Managed team members and delegated tasks effectively.
- Provided regular feedback to team members on their performance.
- Fostered positive work environment to encourage productivity.

BRANDON THOMPSON

DATA/MATHS STUDENT

HIRING MANAGER,

My name is Brandon, and I'm reaching out today because I am confident I would be an excellent fit for your team. I am a fast learner and a diligent worker, with the ability to quickly adapt and excel in any role. This confidence doesn't come lightly—it stems from my diverse experiences across multiple industries. Not only do I assimilate into new environments with ease, but I consistently exceed expectations in a short amount of time. I take great pride in my work and the professionalism I bring to every task, striving to inspire those around me.

When I'm faced with a challenge, I am committed to solving it from start to finish. My priorities are accuracy and efficiency, but I am flexible enough to adjust my approach as needed. I have a passion for learning and am not afraid to ask questions or dig deep to find the answers. My attention to detail and proactive mindset allow me to anticipate and address potential issues before they arise—saving time, effort, and money. I genuinely enjoy research and thrive in situations where I must quickly learn new skills to meet a goal. This adaptability has proven invaluable in my past roles, and I am confident it will allow me to excel in this position. My ultimate aim is to build a trusting relationship with you by consistently delivering exceptional results.

I also bring a strong foundation of technical skills, including self-taught experience with Python and SQL, and some familiarity with Microsoft Excel and Google Sheets, which I've used for various personal projects (you can view these projects on my website). Recently, I made the decision to return to school to pursue a degree in Mathematics, with the goal of leveraging my skills in the finance industry. My long-term aspiration is to manage my own hedge fund, but I know that every great journey begins with the right foundation—working with you could be the perfect next step in that journey.

In addition to my technical skills, I have extensive knowledge of automobiles and pride myself on being friendly and personable. My past experience running online businesses has equipped me with a deep understanding of creating great deals and solving customer problems. Currently, I'm seeking a part-time position on weekends to make the most of my free time while also accommodating an internship that I attend during the week. Although my preference is to keep Mondays and Tuesdays free, I am available on those days if absolutely necessary. I'm also willing to acquire a VSA license if offered a position.

If you are looking for a motivated, adaptable, and hard-working salesperson, I would love the opportunity to contribute to your team. Please feel free to contact me at (236) 866-3944, though I am most easily reached by email at bthompson_1@outlook.com. I look forward to discussing how we can collaborate and bring value to one another.

SINCERELY,

BRANDON THOMPSON
